

Revolutionize document safety! Store and view files in secure locations.

Some Awesome features!

- PDF Viewer – View your PDF files in secure locations
- 1GB Cloud backup – Retrieve your files anytime
- Map view – Files are laid out on the map for you
- Secure – Files will be secured using indestructible algorithms (AES 128)

Totally awesome app for you

LocAdoc aims to provide a way to store confidential documents in mobile devices and access it only in the area you find it is safe. By including two factor protections, one being password and second being the location, hence, providing secure vault for document storage so that it does not get into wrong hands even if your device is compromised.
